

# NIVEN FAMILY WINE ESTATES

Niven Family Wine Estates, based in the Edna Valley on California's South Central Coast, is one of the most innovative family-owned wine companies in America. Recognizing the diversity of their SIP Certified Sustainable estate in the cool-climate Edna Valley, NFWE grows no less than a dozen varietals, and makes an extreme range of wines in a wide array of carefully focused styles. No other wine company, whether corporately held or family owned, grows grapes and makes such a broad spectrum of wines from a single cool-climate estate. Rather than group all of these efforts under one wine brand, the Nivens have strategically positioned them as five separate projects. From racy Grüner Veltliner and Albariño, to elegant Pinot Noir and Chardonnay, to darkly concentrated Syrah and everything in between, the Nivens are uniquely showcasing the diversity of a single estate from the ground to the bottle.
